

UNITED STATES MARINE CORPS
Marine Corps Air Station
(Helicopter)
New River, Jacksonville
North Carolina 28545

214:RES:gmp

12 June 1981

From: S-3 Officer
To: S-4 Officer (Attn: Mr. ACOSTA)

Subj: Marine Air Traffic Control Squadron-28 Relocation

1. Consideration is being given to moving Marine Air Traffic Control Squadron-28's radar from its present site to a site near the station TACAN, which is near the mid-point of runway 5/23. Initial discussions with the MATCS-28 indicate these requirements include an access road, gravel pads for their equipment and shelters, electrical power and running water.
2. Request you be prepared to give a rough estimate of what this would cost and discuss any other factors which may impact on this proposed move.

R. E. SIRMANS
